

## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Manabu Kanesaka on 03/19/2009.

The application has been amended as follows:

At claim 11, on line 1, replace "having" with "encoded with".

### ***Allowable Subject Matter***

2. Claims 1-11, 13-14 and 19-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: The most recent amendment necessitates that the advertisement (CM) data that is used to encrypt the moving image file be separate from the video data. This distinction makes the claims allowable over the closest prior art, which is the combination of Berkson, Zhu, AAPA and Nelson, which uses advertisement data that is necessarily a part of the video data to encrypt the video.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
